## Objective

To leverage my technical skills in Python and Django to build robust, scalable web applications and deliver professional solutions in a challenging and growth-oriented environment. Proficient in both frontend and backend development, with a strong passion for clean code, problem-solving, and continuous learning of emerging technologies.

## Experience

### Python Developer Trainee – EPPS Infotech Ltd (Aug 2025 – Present)

- Developing and maintaining the project using FastAPI and SQLAlchemy.
- Implemented database schemas, ORM models, and CRUD operations with optimized queries.
- Collaborating with cross-functional teams for debugging, testing, and API integration.

## Education

### Sant Gadge Baba Amravati University

*Bachelor of Engineering in Information Technology*  
CGPA: 8.22

Amravati, MH  
May 2024

### Maharashtra State Board

*HSC: (D.E.S. Junior College, Datala)*  
Percentage : 80.77

Buldhana, MH  
June 2020

## Technical Skills

**Languages:** Python, JavaScript, SQL

**Frontend:** HTML, CSS, React.js

**Backend:** Django, FastAPI, Flask

**Databases:** MySQL, PostgreSQL, SQLite

**Libraries & Tools:** Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub, Postman

## Projects

### Blog-Application(Django)

- Developed a full-stack blog platform with user authentication, CRUD operations for posts, and an optional commenting feature using Django's function-based views and forms.
- Implemented user-specific dashboards and profile pages, showcasing secure login/logout flow, form validation, and dynamic content rendering.
- Applied Django models, templates, and routing logic to structure clean URLs and ensure scalable content management.

### Student Management System

- Developed a dynamic web application to maintain the students record in school and colleges.
- Implemented over all project using the Python Programming language.
- Achieved a responsive design with optimal performance, access various device and screen sizes.

### AI Chatbot Application

- Developed a web-based chatbot application using React.js, HTML, and CSS to address user queries.
- Integrated the OpenAI API using the Axios library to provide accurate and relevant responses.
- Implemented responsive design principles to ensure optimal user experience across various devices.

## Certificates and Courses

**SQL and Relational Databases**, IBM Developer Skills Network.

**Python Full Stack Development** , Qspider Training Institute

## Achievements

SQL Basics and Intermediate HackerRank skill certificate

National Service Scheme Volunteer.
